

Tooth Fairy Land

“Making a Magical Moment a Magical Memory”

I am so sorry I missed you last night. Please forgive me but as you know I have to be careful not to be out when it is light outside. I am leaving you a little surprise for being brave. Don't worry your tooth will grow back again soon. And, remember to brush your teeth twice a day, to floss at least once and to make regular visits with your dentist.

This is to certify that I collected a tooth from _____

On the night of _____

Congratulations on losing your _____ tooth!

Love..... Flossie
